LETTER TO W. A. DAVIS, Lancaster, S. C.

Dear Sir: Two cans of paint look alike; two paints look alike, when opened; two jobs look alike, so long as they're new—unless one is scant.

They are far from alike: one is paint and the other is trash.

The gallon price is not far from alike. They don't cost alike. One takes 10 gallons to paint a house; the other takes 20. The cost of one job is \$50; the other \$100—it may be \$90—the job that cost least is the good one; wears twice as long as the other.

There are two ways of telling good paint; by the name; by the number of gallons it takes for a job—least gallons, best paint. By the name Devoe; by least gallons.

Yours truly
F. W. DEVOE & CO.
